Welcome to Alexander Hunt Distinct Homes

We create custom homes that combine quality craftsmanship, superior exteriors and interiors, and overall energy efficiency.

For years, AHDH and John Lively & Associates have collaborated on countless homes in the Briarwood area. We believe these are the four keys to a truly distinct home:

- Site planning (how the home occupies the site)
- Well-designed floor plans (maximizing efficiency and comfort for today's lifestyle)
- Elegant exteriors (balanced and blended with the site and neighborhood)
- Details (transmitting an enduring sense of quality, warmth, character, care, and thought)

When these four key elements are considered together, the result is truly a Distinct Home.

AHDH uses JELD-WEN windows from JD Windows and Doors. They provide excellent service from the selection phase to installation, resulting in windows that are elegant, long lasting, and energy efficient.

AHDH teams up with Savvy House for construction-focused interior design and custom architectural accents... resulting in homes that are boldly unique.

AHDH values Capital Distributing's vast selection and expertise in helping us select state-of-the-art appliances to fit each home's unique needs. We feature Thermador appliances that combine unparalleled innovation and superior performance.

A FERGUSON ENTERPRISE

Whether it's Contemporary, Tuscan, European, Hill Country, Transitional or Traditional, AHDH designs each home from the ground up around your lifestyle and with attention to every detail.

Trident Pools builds quality pools that complete the spectacular outdoor living areas of AHDH homes.

Alexander Hunt is proud to be a partner of Stockman's Bank, providing financing for AHDH projects and construction financing for buyers to build custom homes.

For the past decade, Bryan Crawford with Briggs Freeman Sotheby's International Realty has consulted with AHDH on development and site selection. He has helped ensure that each new project is unique, outstanding, and respected in the market.
